PRE-CONFERENCE EXCURSION TO SUOMENLINNA

There will be a possibility for an excursion to Suomenlinna on Monday morning on June 11th, 2018 prior to the conference. This will be on your own costs.

Suomenlinna (www.suomenlinna.fi) is a sea fortress that was built on the coast of Helsinki in 1748. Here you can get a real feeling for Finland's position between East and West. Suomenlinna was shaped by the distinct historic eras when helped defend first Sweden, then Russia and ultimately Finland. In 1991 Suomenlinna was listed as a UNESCO World Heritage Site to be preserved for future generations as an example of the European military architecture of its time. Today about 850 people live permanently in Suomenlinna.

You can get to Suomenlinna by a ferryboat leaving from the market place every 20 minutes. The boat drive lasts 15 minutes. There are several restaurants in Suomenlinna where you can have lunch. The islands themselves are very interesting to explore but you can also visit several small museums and a submarine there.

Those who are interested in visiting Suomenlinna we will give more detailed information later.
